(limit 200 characters, including spaces)

Product name/model number

Special handling for literature

Associate this literature with
these Web pages

Remarks:

Will the customer access the publication through an online form?

Yes

No

(When adding literature to the Web, please consider the industry pages at A.com. Remember that all of these pages have multiple layers so make sure you investigate the whole technology family of interest. For instance the app note "Mobile WiMAX™ Manufacturing Test with the N8300A" should also be listed on the Manufacturing WiMAX Test page. Literature should closely identify with any of the pages with which the literature piece is associated.)
