

How to find your Host ID and request a license file

The Agilent License Manager Application is included with your Agilent software product. It is installed on your computer when you install your Agilent software product.

To obtain a Host ID from the Agilent License Manager (ALM) application, follow these steps:

1. Open the **Agilent LicenseNotifier** dialog box
 - a. Right-click the Agilent License Manager icon  or  in the Windows toolbar. (if the icon is hidden, click the "Show hidden icons" button on the right side of the toolbar.)
 - b. Select the **About Agilent License Notifier**.

2. Click on the **Copy Host ID** link to copy the Host ID to the Windows clipboard.

3. You can request a license file from: www.agilent.com/find/softwaremanager. An Agilent order number, entitlement certificate number and Host ID, from step 2 above are required.
