

## README for Contributed Library for OpenLAB ECM

### Document Information:

|                                     |                                                                         |
|-------------------------------------|-------------------------------------------------------------------------|
| Document:                           | <a href="#">General Readme File for Contributed Library OpenLAB ECM</a> |
| Library Revision:                   | <a href="#">Library B.04.01</a>                                         |
| For ChemStation OpenLab integration | <a href="#">Rev. B.04.01</a>                                            |
| Date:                               | <a href="#">February 20 , 2009</a>                                      |

### Purpose

The contents of this library are intended to help users of the ChemStation and OpenLAB ECM software to develop and customize their installations to their specific needs and therefore get the best out of their investment.

The contents of the library come from both Agilent internal and user contributed sources and all contributions are welcome. Each contribution is checked for functionality but does not necessarily go through any formal testing procedure.

Therefore Agilent Technologies DOES NOT OFFICIALLY SUPPORT the operation of the contributions in any way whatsoever.

Defects found in the software should be directed to:

PHS Marketing  
Agilent Technologies Deutschland GmbH  
Hewlett-Packard Str. 8  
76337 Waldbronn  
Germany  
Fax +49-(0)7243-602-501

### Prerequisites

You will need a PC with the ChemStation OpenLAB integration software in its supported software environment.

Specific contributions may need other requirements that will be detailed in the directory holding the contribution.

### Contents

The individual contributions are held in numbered directories, for example ...

\1 for contribution 1

\2 for contribution 2
