

Agilent Technologies

Declaration of Software Validation

We herewith inform you that the *software*

G3335-60103

Product Number

MassHunter Workstation Acquisition Software for OOO

Product Name

B.06.00

Revision Number

was developed according to the quality process and life cycle followed by the Life Sciences and Chemical Analysis groups of Agilent Technologies. Life cycle checkpoint details were reviewed and approved by management. The product was found to meet its functional and performance specifications, and release criteria at release to shipment.

In order to fulfill the validation requirements of the users of this product according to current regulations and quality standards including, but not limited to, 21 CFR 210 (Good Manufacturing Practice for Drugs), 21 CFR 211 (current Good Manufacturing Practice for finished pharmaceuticals), 21 CFR 58 (Good Laboratory Practice), Agilent Technologies will make lifecycle documents referenced in the product's electronic project notebook available to an authorized governmental or regulatory agency for inspection at its Integrated Biology Solutions Group, Santa Clara, California site (terms and conditions to be negotiated).

Agilent Technologies will maintain possession of all documents and their reproductions and may require a confidential disclosure agreement to be provided by those requiring access to these documents.

Agilent Technologies will maintain possession of all documents and their reproductions and may require a non-disclosure agreement to be provided by those requiring access to these documents.
