

Course Number H2375A

Dedicated

Agilent 3070 Productivity Assistance Training

Overview

Enhance your Agilent 3070 board test development and sustaining skills

Course Overview

Improve your productivity using the Agilent Technologies 3070 Board Test System. Have an experienced Agilent Technical Consultant help you apply the new skills you learned in 3070 training to meet your specific test requirements. Our experts will work with you in your environment and job function to further develop and refine your skills, increasing your efficiency and effectiveness.

What You Will Learn

Depending on your job function and responsibilities, Agilent has experience that can be leveraged to improve your productivity. Although others exist, our two most often requested services are for Test Development Engineers (test development) and Test Sustaining Engineers (test maintenance).

Specifications

Course Type

User/Application training

Audience

Printed Circuit Board (PCB) test engineers

Prerequisites

Agilent 3070 User Fundamentals Training (E1031A), Agilent 3070 Family Quick Turn

Programmer Training (E3796C), Agilent 3070 Quick Trainer Computer-Based Training (CBT) (E3740 opt. 001), or equivalent experience using the Agilent Family of Board Test Systems

A 3070 Test System at your job site and a PCB ready for test development or test maintenance

Course Format

A 3070 Technical Consultant works with you in performing your job function at your job site.

Delivery Method

Dedicated (at customer site using customer's equipment)

Detailed Course Agenda

Test Development Engineers typical productivity assistance activities:

- CAD Format Translation assistance (1 day)
- Test strategy review and program evaluation (1 day)
- Program debug assistance (2 days).

Test Sustaining Engineers typical productivity assistance activities:

- System Administration assistance (1/2 day)
- Networking assistance and application (1/2 day) installation
- Program debug assistance (1 1/2 days)
- Q-Stats introduction and Board Grader review (1/2 day).
