

## **Anaren, Inc. Forms Alliance With Tesla Controls to Offer Streamlined Hardware/Software Approach to Development of Wireless Applications Based on the ZigBee(R) Standard**

**New approach reduces typical familiarization time and basic programming cycle for ZigBee® applications from weeks to days, through unique combination of easy-to-use Anaren Integrated Radio (AIR) modules and Tesla Controls firmware and examples; the solution will premiere at the 2012 Consumer Electronics Show at the Texas Instruments booth (#21318E) located in the ZigBee Alliance-sponsored ZigBee TechZone (Las Vegas Convention Center, South Hall 1)**

SYRACUSE, N.Y., Jan. 10, 2012 (GLOBE NEWSWIRE) -- Anaren, Inc. (Nasdaq:ANEN) announced today that it has formed a strategic alliance with Tesla Controls (San Diego, CA) to develop and market a unique, streamlined approach to the typical familiarization routine, basic programming, and development process of wireless applications for the ZigBee® Standard. The new solution will premiere at the 2012 Consumer Electronics Show (CES), at the Texas Instruments booth (#21318E) located in the ZigBee Alliance-sponsored ZigBee TechZone at that show. A live demo will feature the Anaren/Tesla solution integrated onto a BoosterPack containing pre-flashed MSP-430 Value Line parts developed for Texas Instruments' popular MSP430™ Value Line LaunchPad development kit. Anaren Integrated Radio (AIR) modules are high-performance, low-power RF modules incorporating TI chips. Tesla Controls offers a unique suite of firmware solutions for building energy management systems.

ABOUT ANAREN: An innovative leader in microwave and RF technology, Anaren designs and manufactures complex components and subsystems for the consumer electronics, wireless infrastructure, defense, and satellite markets. To learn more, visit [www.anaren.com](http://www.anaren.com)
