**ANAREN MICROWAVE, INC. INTRODUCES 800 AND 900 MHz
VERSIONS OF ITS XINGER®-BRAND CIRCULATOR**

Syracuse, N.Y., November 5, 2002 – Anaren Microwave (NASDAQ: ANEN), a leader in wireless technology, announced today that it now offers 800 and 900 MHz models of its original Xinger®-brand circulators (Spring '02). The lower-frequency *and* lower-cost version of the company's original SM circulator is an ideal fit for MCPAs and SCPAs.

Key specifications include:

Frequency	869-894 MHz 925-960 MHz
Size	1.0 x 1.0 x 0.299" (25.4 x 25.4 x 7.59 mm)
Low insertion loss	0.25 dB / typ
Low return loss	27 dB / typ
High isolation	27 dB / typ
Plus...	Matched RF Power-brand terminations and attenuators avail...

--more--

“In addition to its ‘no touch’ assembly advantage,” said Anaren’s wireless product line manager, Hans Peter Ostergaard, “the new parts are compatible with lead-free solder (up to 265°), eliminate the need for machined heat sinks, and can be adapted to OEMs next-generation designs using a simple load-change.” He indicated, moreover, that the units are concurrently being manufactured/shipped from multiple Anaren global locations, for added convenience and confidence.

Like all Anaren components, the new 800 and 900 MHz circulators are backed by the Anaren exclusive 100% OnSpec™ guarantee and B-There™ service commitment that ensures on-time delivery. Samples are also available within 24 hours for qualified prototype work.
