**ANAREN MICROWAVE, INC. INTRODUCES TERMINATIONS
TO MATCH XINGER®-BRAND CIRCULATORS
(New parts are a quick, cost-effective, and optimized way to convert
Anaren's just-launched true-SM circulator to an isolator.)**

Syracuse, N.Y., November 4, 2002 – Anaren Microwave (NASDAQ: ANEN), a leader in wireless technology, today announced it has introduced a line of RF Power-brand resistive components specially matched to the company's Xinger®-brand circulators – which were introduced to the market this last spring as part of Anaren's *BreakThrough™* 2002 line-up.

“Our customers can expect more and more of these synergies between our product lines,” says Rich Connors, Marketing Manager at RF Power. “Part of the thinking we're known for is very much focused on what's possible when our products are combined in new ways.” Connors indicated that the new resistors – available in both flanged and surface mount configurations -- offer designers a range of advantages:

- * Quick, performance-optimizing approach to achieving isolator functionality with Anaren's exclusive SM circulator

-- more --

* Cost-competitive, yet solid-performing, solution – using the latest thick-film

AlN ceramic design

* Rugged, reliable, high-power handling

Basic specifications for the new parts are as follows; additional information is available through the company’s sales department.

Specifications	Surface Mount Part #: RFP- 250375N4Z50-2	Flanged Part #: RFP-100N50TW
Power handling	25/50 Watts (50 Watts possible when mounted to PCB w/ an excellent thermal contact to heat sink)	100 Watts
Frequency	DC-3 GHz	DC-5 GHz
VSWR	1:25:1	1:25:1
Operating temperature	-55 to +150 C°	-55 to +150 C°

Like all Anaren off-the-shelf parts, the new terminations are also backed by the Anaren exclusive 100% OnSpec™ guarantee and B-There™ service commitment that ensures on-time delivery. Samples are also available within 24 hours for qualified prototype work.

Anaren Microwave Inc. develops, designs, manufactures and sells complex microwave signal distribution networks and components for the wireless communications, satellite communications and defense electronics markets. To learn more about Anaren or its products, visit www.anaren.com.
