A W must precede every Routing break between commas. A comma separates an additional 5 character RTG code when required or when a two-character selected distribution code is required.

**ELEMENT RULES:**

1. The first character of this element reflects the AOC destination. The only valid values are:

I = ILLINOIS  
N = INDIANA  
M = MICHIGAN  
O = OHIO  
W = WISCONSIN

2. Characters 2-5 of Element 2 are locally developed and controlled.
