

Common HAIPE® Manager

Product Overview

PROVIDING MORE HAIPE CAPABILITIES SOONER TO SIMPLIFY YOUR NETWORK MANAGEMENT

- HAIPE v3.x MIBs for Interoperability
- Scalable to over 10,000 Managed Devices
- Key Characteristics:
 - Allows for Always On Management Services
 - 24x7 Network Monitoring
 - Scheduled, Unattended Routine Maintenance
 - Operating System Independence
 - Wizards guide through task sequences
 - File Imports minimize time and errors
 - Northbound Interface to Higher Level Mgrs
 - Flexible Architecture enable future growth
 - Multi-User, Multi-Session with RBAC control

SIMPLE TO USE

- Wizards enable network configurations to be provisioned in a few simple key strokes
- Highly automated functionality supports administration and scheduling tasking
- Client or JAVA compliant Browser
- No cost training with each HAIPE IS v3.1 INE purchased*
- Lowers network support costs
- CHM (Linux and MS Windows®)
- CHM Express (MS Windows®)

INTEROPERABILITY:

- HAIPE® IS v3.1 and 3.0 Common MIBs
- SNMP v3
- JDBC Interface
- CORBA API to Northbound Manager

MINIMUM SYSTEM REQUIREMENTS:

Server:

- 2 GHz processor
- 1 GB RAM required
- OS - WinXP / RedHat Linux Enterprise 5

Client:

- 2.0 GHz processor
- 1 GB RAM required
- Java 1.6 Virtual Machine

Browser:

- Internet Explorer 6 or Mozilla FireFox 2

L-3 Communication's Type-1 encryption technology is part of the DoD's "Defense in Depth" strategy and considered only a portion of an overall defense in-depth implementation. A comprehensive network Information Assurance strategy involving "Defense in Depth" is required to ensure secure and reliable protection for sensitive and classified information. HAIPE® is a registered trademark of the National Security Agency (NSA). RedEagle™ is a trademark of L-3 Communication and represents the KG-240A, KG-245A and KG-245X product family. Specification is subject to change without prior notice. Incorporating NetHawk VPN Technology Licensed by SafeNet Inc. Copyright L-3 Communication Systems-East 2011.
