

Partnering for Exceptional Solutions

L-3 ESSCO and Jaggard Communications have partnered to offer exceptional solutions for your antenna, tower and radome requirements.

BENEFITS

- The L-3 ESSCO team is responsible for complete installation, including the radome, towers and equipment cabins, so you have one point of contact for your installation project and don't have to deal with multiple contractors
- Trial erection ensures precise fit prior to arrival of tower at site
- Ease of tower manufacture allows faster construction time and lower site costs, minimizing project risk
- Latest project management and procurement techniques enhance our ability to offer first class products and services worldwide at extremely competitive prices

Working with Jaggard Communications and utilizing an established international network of manufacturers and civil works contractors, L-3 ESSCO can provide a single source solution to your infrastructure needs. By providing radomes, towers, equipment cabins and civil works, as well as many technical services such as project management, installations, maintenance, site surveys and electromagnetic and structural design, we can lower overall program costs to our customers.

CAPABILITIES

- Decades as the world's leading designer, producer and installer of radomes in all climatic conditions
- Able to provide turnkey solutions and project management on a worldwide basis
- ISO-9001-2000 manufacturing facilities in both U.S. and Ireland
- 3-D drawings allow you to view your virtual tower and radome before delivery
- Engineers dedicated to providing practical low-cost solutions for your radome and tower needs

Partnering for Exceptional Solutions

ADVANTAGES

- L-3 ESSCO offers turnkey packages for radome towers and foundations
- The towers are designed and fabricated to U.S. and British standards
- Towers are supplied with a galvanized finish and can be painted in accordance with FAA and other international standards
- L-3 ESSCO can design and supply suitable foundations
- L-3 ESSCO provides site surveys with geotechnical support
- Other items offered as part of the package include equipment shelters, turning gear enclosures, waveguide and cable management systems as well as grounding with Lightning Protection System (LPS) earth mats
- Option of either internal or external stairs
- Tower lighting and security systems
- Aircraft warning lights
- Hoists and cranes (tower lifting equipment)
- Maintenance
