

John C. McNellis
Corporate Senior Vice President and President of L-3 Aerospace Systems

John C. McNellis is corporate senior vice president and president of L-3 Aerospace Systems which has more than 20,000 employees worldwide and \$4.5 billion in annual sales. He has held his current position since March 2014.

Mr. McNellis possesses over 30 years of executive and project management experience in a broad spectrum of domestic and international defense programs. He joined L-3 in 2003 as president of Link Simulation and Training with responsibility for managing and growing Link's worldwide operations, and was appointed president of L-3 Integrated Systems Group in November 2008. Prior to L-3, he served as president of Lockheed Martin's Tactical Systems unit and held executive positions at Loral and IBM. Mr. McNellis has an extensive background in aircraft special mission systems, modification and maintenance; C³ISR; training systems; and satellite command and control.

Mr. McNellis holds Master of Science and Bachelor of Science degrees in Physics from the University of California at Los Angeles and Santa Clara University, respectively. He also holds a Master of Business Administration from Santa Clara University.

L-3 Aerospace Systems is recognized internationally as a systems integrator specializing in the design, development, and integration of advanced avionics, signals intelligence and surveillance systems for special mission aircraft; aircraft modernization; and field support for government and commercial customers worldwide. Aerospace Systems and its predecessor organizations have modified more than 15,000 different aircraft of more than 125 types.

L-3 Aerospace Systems holds world-class designations, including Software Engineering Institute Capability Maturity Model-Integrated (CMMI) Level 5, CMM Level 5, ISO 9001 and AS:9100 certifications. It holds Federal Aviation Administration Class 4 Unlimited Repair Station and Organization Designation Authorization status at multiple facilities. Headquartered in Rockwall, Texas, L-3 Aerospace Systems has operations throughout the world.
