

Our Vision

To be the Premier Supplier of World Class Electronic and Maritime Solutions to our clients.

L-3 Nautronix is the principal Australian Company of L-3 Communications; a Global leader in Government and Defence services and supply. Established across Australia and in New Zealand, L-3 Nautronix is acknowledged as an industry leader in Defence and Commercial systems solutions and presents as a highly credible prime or subcontractor backed by the highest calibre management and quality systems.

Performance Excellence is achieved with a highly skilled workforce and local resources that are strengthened through strong relationships with other companies. This is enhanced through unparalleled access to its parent Company's vast expertise and international capability.

Experience Counts

With over 20 years of evolving experience, L-3 Nautronix has

successfully deployed a relationship based approach to its business model that promotes understanding, anticipation and a sophisticated level of customer satisfaction and teamwork across its core domains of:

- Acoustic Systems
- Electronic Systems
- Spatial Awareness & Solutions
