

Soldier ISR Receiver (SIR) Tactical ROVER

The L-3 Communications' SIR provides secure digital and analog multi-band ISR video directly to the dismounted user for real-time situational awareness.

Soldier ISR Receiver (SIR) Tactical ROVER

Product Description

The Soldier ISR Receiver is an IP-based, multi-band, secure, digital and analog receiver designed for ease of integration with very low SWaP. The SIR is the smallest and most capable tactical ISR receiver in

the market. With its variety of interfaces the user can connect SIR to virtually any Soldier System, existing display device, computer, and power source.
