Biography

Alison J. Hartley
President, ComCept Division
L-3 Integrated Systems Group

Alison J. Hartley is President of L-3 ComCept in Rockwall, Texas, which specializes in systems engineering, innovative networking, requirements development, modeling, simulation and communications. ComCept develops advanced wireless Network Centric Warfare concepts to enhance use of Intelligence, Surveillance, and Reconnaissance assets and specializes in developing sensor networks linking platforms in the domains of sea, air, land and space.

Prior to her current position, Hartley joined L-3 IS in April 2003 and served as Senior Vice President of Business Development for L-3 Integrated Systems Group (L-3 IS) and was responsible for new business development, field marketing, strategic planning, trade shows and events, proposal development center, public relations, legislative affairs, and communications.

Before joining L-3, she spent more than 15 years in business development, sales/marketing, contract management and supply chain management positions at Honeywell International. She served as Market Segment Leader of the electronic warfare/special mission aircraft segment for the Defense & Space Electronic Systems unit based in Albuquerque, N.M. Hartley was previously assigned to Honeywell's Defense Avionics Systems business development, where she was responsible for developing avionics systems business opportunities applicable to military platforms ranging from special mission aircraft to fighters, bombers and tanker/transport in domestic and international markets.

She earned a Bachelor of Arts degree from Gordon College in Wenham, Mass., and a Master of Business Administration degree from Webster University in Albuquerque, N.M. She is a member of the National Contract Management Association, Army Aviation Association of America, Association of the U.S. Army, Air Force Association and Airlift Tanker Association.

She and her husband, Timothy, live in Heath, Texas.
