

Cylindrical and apertured lenses, A08806 & A08826

3" (76 mm) Lightline with A08582 Cylindrical Lens

Lightline Lenses

Cylindrical and apertured lenses for 1" to 16" lightlines.

Features

- Cylindrical and apertured lenses are available as standard products for most lightline models. They can be custom made for all models.
- Cylindrical lens attachments are designed to collect light exiting the lightline to increase intensity up to a factor of 10.
- Apertured lens attachments are designed to project a more collimated line of light, not to increase light intensity.
- The lenses are adjustable and easily attach to *Schott Fostec* lightlines.
- Most lenses are in stock and ready to ship.
