

A08035

Bundle Extender, A08035

Bundle Extender Nylon Tipped Set Screws

# Bundle Extenders

Extend the working length of standard fiber optic components using a *Schott Fostec* bundle and these couplers.

### Features

- Reduces the requirement for custom fiber optic lengths.
- Provides the user with additional work space since the light source can be placed in a more remote area.
- Extends length of all standard *Schott Fostec* ringlights, bundles, goosenecks, lightlines, and backlights\* that have a .310" (8) or .510" (13) active fiber diameter.
  - Use Part Number A08035 with A08031.40, A08031.40R, A08031.60, A08031.60R, A08031.80, A08031.80R to extend products with an active fiber diameter of .310" (8) or less.
  - Use Part Number A08055 with A08051.40 and A08051.60 to extend products with an active fiber diameter greater than .310" (8) but less than .510" (13).
- Black anodized aluminum with nylon tipped set screws.

*PLEASE NOTE: Using a bundle extender results in a 30-40% light loss. If your application requires maximum intensity, we recommend ordering a modified standard component.*

\* Backlight adapter, part number A08931 is required in order for the bundle extender to be used with *Schott Fostec* standard backlights.
