Sales Engineer – Orange County, CA

Polytec, the global leader in non-contact measurement of vibration, structural dynamics, and other mechanical motion, is searching for a dynamic Sales Engineer to lead our growth in Southern California and the Southwestern U.S.

The successful candidate will have at least 5+ years of successful sales, applications engineering, and/or marketing experience selling test equipment to a variety of industries and / or research centers, including data storage, MEMS, aerospace, and others. BSME or equivalent is required. Experience with optical instrumentation, data acquisition, modal analysis, and precision metrology is highly desirable.

Polytec offers a dynamic, team-based work environment, career growth opportunities, competitive salary, and excellent benefits. Polytec is an equal opportunity employer.

Polytec, Inc.
