

# Polytec Press Release

Date: 07/01/04

Reference: Pol-Japan-Inc-010704-e

As the worlds largest and most dynamic manufacturer of laser Doppler vibrometers, Polytec GmbH of Waldbronn, Germany, is pleased to introduce to you, the incorporation of **Polytec K.K.**

To allow us to provide even more responsive service, expand our applications offerings, and offer even more products of the highest of standards dedicated to our valued Japanese customers, **Polytec K.K.** has, as of July 1<sup>st</sup> 2004, moved into facilities in the German Centre for Industry and Trade in Hakusan High Tech Park in Yokohama-Shi, Kanagawa-Ken.

Based on the finest traditions of German engineering excellence, the Polytec quest has, since it's founding in 1968, been to provide the Test & Measurement community with laser Doppler vibrometry products that are built up to the highest of standards – and not merely built down to a price. More than ever, meeting and exceeding customers' expectations require a relentless pursuit for perfection in every detail.

At Polytec we pride ourselves in the fact that our laser Doppler Vibrometers are all manufactured under the most stringent quality control and that our laser Doppler vibrometers are, throughout the world, regarded as the vibrometer of choice for the finest in precision, non-contact, laser based vibration transduction and analysis. Through the vehicle of the new Polytec K.K, the Polytec design expertise and quality work will now be made available to our Japanese customers with a unique commitment to product, applications and service excellence.

**Polytec K.K.** is tasked with upholding and exceeding the high service quality, and applications support excellence as already established by PI Polytec K.K. and will guarantee that there will be no compromise of the reputation PI Polytec has forged out of years of sales experience in laser Doppler vibrometry within the Japanese market place.

PI Polytec K.K., based in Tachikawa, Tokyo, will continue to offer their line of renowned, premium quality piezoelectric products for micro positioning applications.

For further information regarding the incorporation of **Polytec K.K.** or for information related to any of the Polytec Laser Doppler Vibrometers, feel free to contact us from our company information listed below.
